

EICKHOF[®]

INDUSTRIAL DESIGNER

Summary: As our Industrial Designer you will have the opportunity to design a product that will have a lasting impact on hundreds of people and will withstand the test of time.

Employment at Eickhof Columbaria Inc. is about being a part of something bigger. It's about being on a team that employs individuals with the highest levels of loyalty, honesty and integrity. It is about exceeding customer expectations on a daily basis by taking a true interest in their needs.

This is the perfect job for people who like to work for manufacturers to help create the look and feel of their brand through your designs. You will have to imagine how consumers might use a product and test different designs with consumers to see how each design looks and works. You will often work with engineers, production experts, and market research analysts to find out if the designs are feasible. We are looking for an optimistic, motivated, outgoing individual who knows how to work well in a team environment and has a passion to surpass expectations to achieve excellence.

As our Industrial designer you will combine design, business and engineering skills to create products that meet both market and production requirements in a company that has been a pioneer in the memorialization industry since 30+ Years.

PROFESSIONAL QUALIFICATIONS:

- **Education:** Bachelor's degree in industrial design, or engineering with a strong academic record
- **Technical Skills:** Proficiency in Microsoft Office Suite and a minimum of 7 years work experience developing a sound understanding of design principals, design techniques, computer-aided design software, manufacturing methods, and technical communication..
- **Customer Service:** Ability to project a professional company image through in-person, phone communication and written interaction with employees; clients; vendors and the general public. Acquire knowledge of columbaria construction designs to support the development of the project through different phases.

DUTIES AND RESPONSIBILITIES: include the following (other duties may be assigned)

- Industrial Designer
 - Solid understanding of fabrication and assembly fundamentals
 - Consult with clients to determine requirements for designs
 - Research the various ways a particular product might be used, and who will use it
 - Sketch out ideas or create renderings, which are images on paper or on a computer that provide a better visual of design ideas
 - Use computer software to develop virtual models of different designs
 - Create physical prototypes of their designs
 - Examine materials and manufacturing requirements to determine production costs
 - Work with other specialists such as mechanical engineers or manufacturers to evaluate whether their design concepts will fill needs at a reasonable cost
 - Evaluate product safety, appearance, and function to determine if a design is practical
 - Present designs and demonstrate prototypes to clients for approval
 - Technically competent with software such as Microsoft Office including Word, Excel, Outlook, PowerPoint, and design software such as AutoCAD and SolidWorks
 - The ability to manage multiple projects simultaneously

ATTRIBUTES:

- Attitude:
 - **Positive Attitude** with “Can-do” outlook
 - **Achieve Excellence** through willingness to do what it takes
 - **Personal Integrity** with sense of ownership and responsibility
 - **Cares about Customer**
 - **Teamwork** with us to become the best Columbaria Manufacturer
- Skill sets:
 - Designer Skills in Manufacturing
 - Verbal, Written and Graphic Communication skills
 - Technical skills

About Eickhof Columbaria Inc.

Eickhof Columbaria has spent over 35 years developing a better way to engineer, design, and fabricate columbaria. Columbaria are above ground memorial structures for the final resting place of cremated remains. We have an attitude that fosters a company culture of constant improvement and that attitude, along with our experience is the reason we have columbaria in nearly all 50 states. They're installed at churches, cemeteries, higher learning institutions, retirement communities, homesteads, and Buddhist temples.
