**PRE-ASSEMBLED
CANTERBURY OSSUARIUM®**

THE THICK ROCK PITCHED CAPSTONE

It compliments the heavy base trim and gives your columbaria an element of elegance and balance that will draw your customers to the memorial.

NO SURFACE MOUNTS OR FASTENING HARDWARE

Eickhof's concealed locking hardware system offers an aesthetically pleasing appearance and requires minimal future maintenance. Access to the niches requires the Eickhof key wrench which provides security for families memorializing their loved ones.

OUR COLUMBARIA ARE PRE-ASSEMBLED

They are built in our manufacturing facility in northwestern Minnesota and delivered in one piece to your location on the Eickhof truck. We assist in setting your columbaria on your foundation.

THE OSSUARY OPTION

Add more memorial spaces with ease. The Memorial Band honors those placed in the ossuary. This can provide families with a more cost-effective memorial option.

THE SOFT URN™ is used in conjunction with the Ossuarium®

It respectfully and securely holds the cremated remains of the individuals placed in the center ossuary for eternal rest.

OUR INSCRIPTION SERVICE IS IN-HOUSE

It is convenient, secure and ensures your inscriptions are completed in a timely and consistent manner.

THE HEAVY ROCK PITCHED BASE

It provides aesthetic appeal and keeps niches above grade. It also protects the memorial from maintenance equipment. It is fastened to the memorial itself, not relying on the concrete foundation for support. It requires no future maintenance to keep the base looking straight and neat.
